## PERSONAL STATEMENT

I have been working in the field of software development for 15+ years, with a focus on building scalable and reliable systems. I have a strong background in both front-end and back-end development, and I am currently working as a Senior Software Engineer at a leading technology company. I have a proven track record of leading teams and driving the development of complex applications. I am passionate about learning and staying up-to-date with the latest technologies and trends in the industry. I am a team player and enjoy collaborating with others to achieve common goals. I am confident that my skills and experience make me a strong candidate for the position of Senior Software Engineer.
